

Real-Time, Remote Video Surveillance Monitoring

Are You Getting The Most From Your Video Surveillance System?

Security Innovations offers affordable, active 24/7 virtual security for your business. We can provide you with a custom-designed security solution and monitor your premises at a fraction of the cost compared with hiring security personnel. Whether your business is a convenience store, a bank or an automotive dealership, you'll get state-of-the-art security coverage without outrageous costs. That's a real value investment.

About Us:

Security Innovations provides advance video monitoring solutions to protect business, residences and the people who live and work in them. We provide a real-time, interactive monitoring solution that can easily integrate with any existing or new video surveillance network. Our systems are run on an advanced software platform, delivering a single point of alarm management and control for video surveillance, burglar and access control. A secure access portal via our website allows customers to manage and monitor their accounts and view activity reports online from any remote location, on any internet connected device.
