

# Affordable Proactive Video Surveillance

**Real-time video surveillance for as low as \$30 per month.**

**Monitored video surveillance costs less than security personnel and is more effective.**

**No hiring and firing. No salaries and benefits. Our systems never fall asleep.**

**We notify you if your equipment is not working which saves you the time and hassle of checking every day.**

**Saves money on most insurance premiums.**

**Combining live monitoring with our unique paging/two-way communicating system can prevent crime before it happens which saves thousands in legal, insurance and lost time expense.**

**Reduces false alarm penalties and fees because cameras verify the need to dispatch the authorities.**

**Typically pays for itself in the prevention of a single criminal occurrence or less**

***How much is peace of mind worth?***

***Our central station is approved by the Department of Homeland Security (UL 2050 approved). Less than 0.5% of companies have this rating. This is the same rating given to NASA.***

***Security Innovation's monitored video surveillance is the most cost effective method to provide world-class security for your business.***
